The Legal Aid Society's Civil Practice

The Civil Practice assists low-income clients with civil legal matters that have an immediate and direct impact on their everyday lives. We enhance family and community stability by helping clients obtain and maintain the basic necessities of life such as housing, healthcare, food and subsistence income. Unfortunately, there is a much greater need for the services of our Civil Practice than can presently be fulfilled. For every client the Practice can help, there are eight New Yorkers we must turn away due to lack of funding.

Proceeds from this event support the Civil Practice.

The Family/Domestic Violence Practice

The Family/Domestic Violence Practice is one of the Society's most effective programs which helps domestic violence victims achieve stability, autonomy and economic self-sufficiency in a safe environment. The Practice provides clients with holistic representation in multiple areas and with essential social services by collaborating with community-based organizations, dedicated to serving survivors of domestic violence.

Proceeds from the Live Auction will support the Family/Domestic Violence Practice.
